MPC , Intermediate   *2020 - 2022*

Experience

Encryptix   (June 2024 - Present)
Web Developer Intern at Encryptix
- Built a personal Portfolio using HTML, CSS and JS. This helped me lot in learing about the media queries and making better responsive web pages.
- Built a landing page of a new Cafe.
- Built a responsive calculator using HTML , CSS, JS.

Projects

Youtube-Interface ⬡   *Web Development*
- I tried to resemble the homepage of Youtube and currently working on the Amazon Interface(interactive).
- I made the website using Advanced HTML and CSS techniques to match the resemblance as much as possible.
- Then made the website responsive to different screen sizes using media queries varying the grid templates.

Landing Page ⬡   *Web Development*
- Used header and footer and made them responsive using CSS queries.
- Currently working on the backend of the website.

Course Projects

- Built a working drone during the second year and currently working on the furthur improvements.(Group-project)
  ⬡   *Machines and Mechanisms*
